# How to Buy NF-Tims - Complete Guide

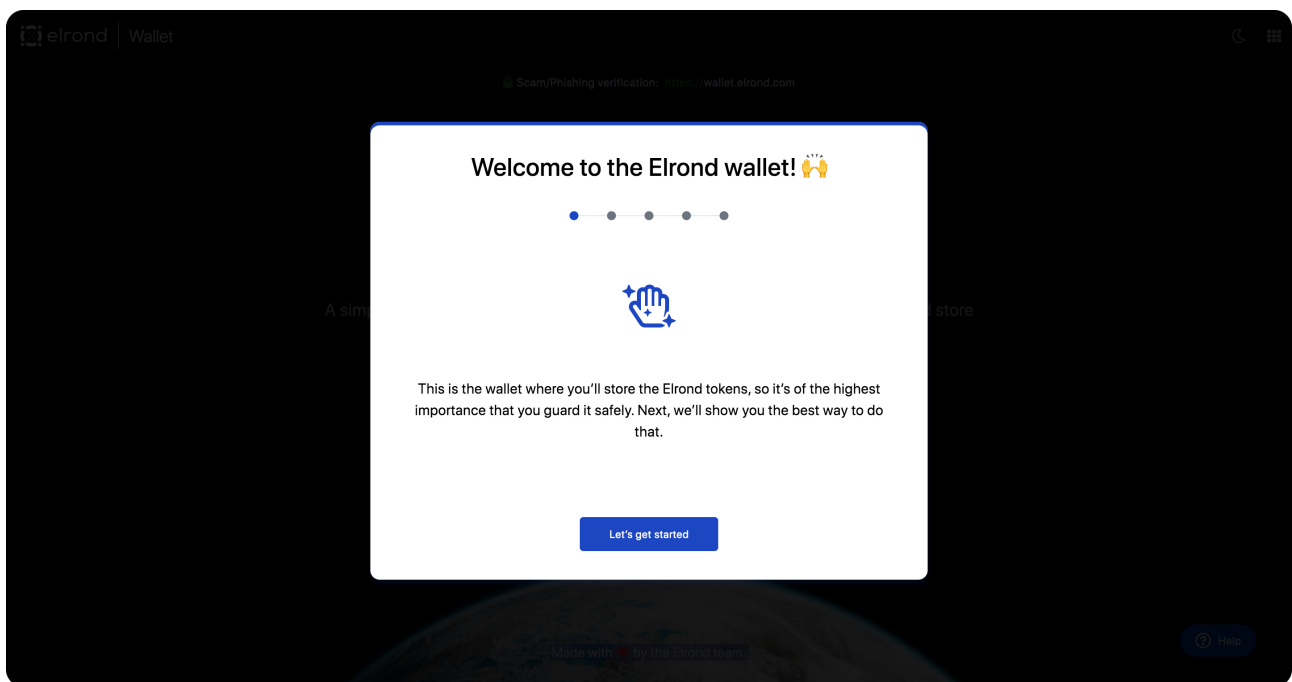

In the following step-by-step guide, we explain the process of buying NF-Tim NFTs in a safe and secure way. Buying an NFT isn't hard, but it requires following some steps that are detailed below.

**Reminder:** NF-Tim by Creative Tim is a utility NFTs project based on Elrond that will be launched on Bhero Launchpad by Black Hat Network.

Let's see all the steps of buying an NF-Tim.

## STEP 1: Create your Elrond Wallet.

Enter [wallet.elrond.com](https://wallet.elrond.com) and get started.

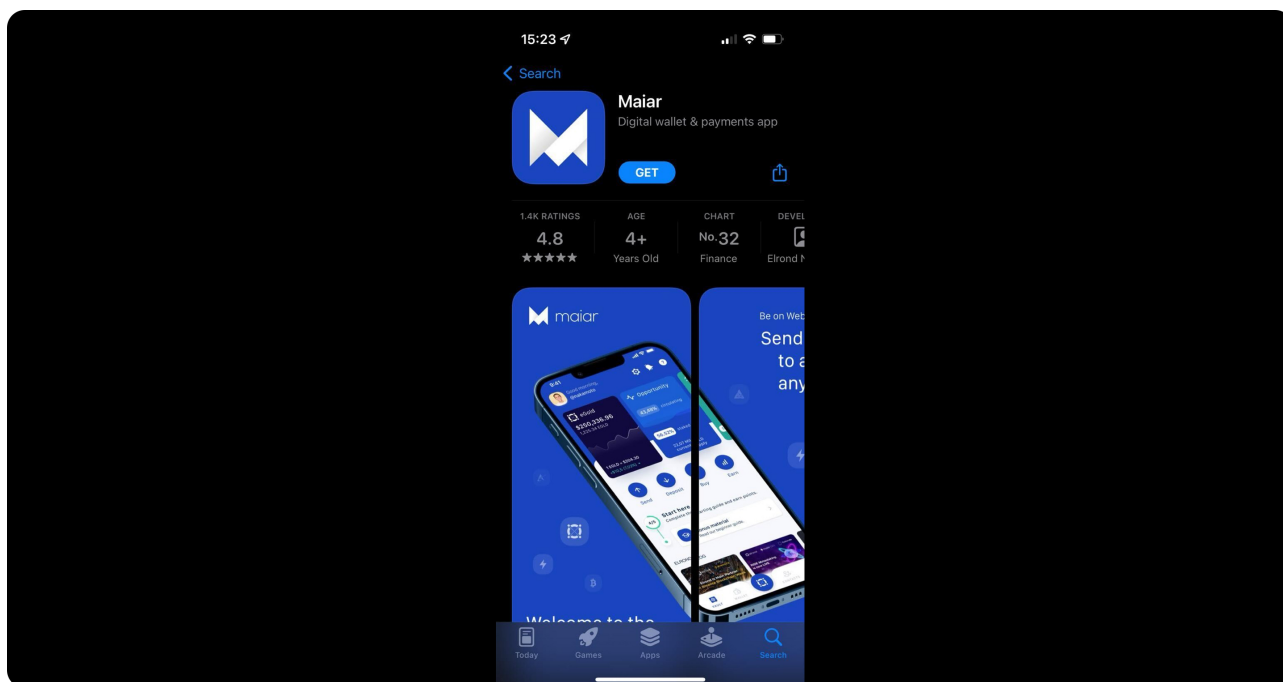

Source: Login Elrond Wallet

## STEP 2: Buy eGLD.

You can use one of these methods:

- You can transfer from another exchange using the Elrond blockchain ([ESDT protocol](#)).
- You can buy from your Web Wallet (using your credit card).

- You can buy from your Maia App (using your credit card). Make sure you download the right one:

### STEP 3:

## Convert eGLD in BHAT.

NF-Tim will be launched on Bhero Launchpad. Therefore, if you want to buy our NFTs, **you must have at least Level 1** on this launchpad.

Your BHero Level will be considered for how many NFTs you can buy. You will be able to buy **5 NFTs per Level**.

Example: If you have Level 1, you will be able to buy a maximum of 5 NFTs. Same, if you have Level 2, you will be able to buy a maximum of 5 NFTs. See in Step 4 how to grow your BHero level.

To get a Level on BHero, **firstly, you have to convert eGLD in BHAT**. For this step, you will use the Maia Exchange App, at [this link](#).

**Notes:**

- See in **Step 4** how much eGLD you should convert in BHAT to be able to buy the number of NFTs you want.
- You should keep in your wallet some eGLDs for the Transaction Fees (1 transaction fee < 1 cent).
- If the transactions are not working, please consider clearing the cache and cookies.

## **STEP 4:**

### **Grow your Bhero Level.**

To grow your Level, add BHAT to Metastaking, using the following application: **Maia**  
**Exchange App**.

- If you add 1 000 BHAT at Staking, you will grow to Level 1 in 12.86 days.
- The more BHAT you stake the faster you grow your BHero Level.
- Use this [Time Calculator](#) to see how you can achieve the desired Level depending on time and how much BHAT you stake.

**Notes:**

You should consider this step **only** if you:

- Do not have Level 1 [Bhero.com](#) Launchpad.
- You want to buy a number of NFTs and your Bhero Level doesn't allow you.

## **STEP 5:**

### **Apply for KYC (1st – 7th September 2022).**

When the KYC process is open (starting on 1st September), you should follow these steps:

1. Go to bhero.com click connect, choose Maia Wallet, with your Maia Wallet scan the QR code and approve the connection;
2. Go to NF-Tim section from bhero.com homepage;
3. Click register in the first box of the dashboard and fill your email;
4. Confirm your email;
5. Go back to the dashboard and start KYC;
6. Fill in the funds source requested information;
7. Take liveness test;

8. Submit proof of identity (ID/passport based on documents requirements);
9. Submit proof of address;
10. Wait for KYC approval.

### **What is KYC?**

KYC is a data-driven process that allows crypto businesses to verify the identity of their customers in order to prevent money laundering, terrorism financing, and other illegal activities.

More info [here](#).

## **STEP 6: KYC Final Processing (8th September 2022).**

At this step, you do not have to do anything.

## **STEP 7: Minting Day (9th September 2022).**

For buying our NFTs, you will have to:

1. Enter [Bhero Launchpad](#) and access NF-Tim section (not available yet).
2. Access "Buy" button.

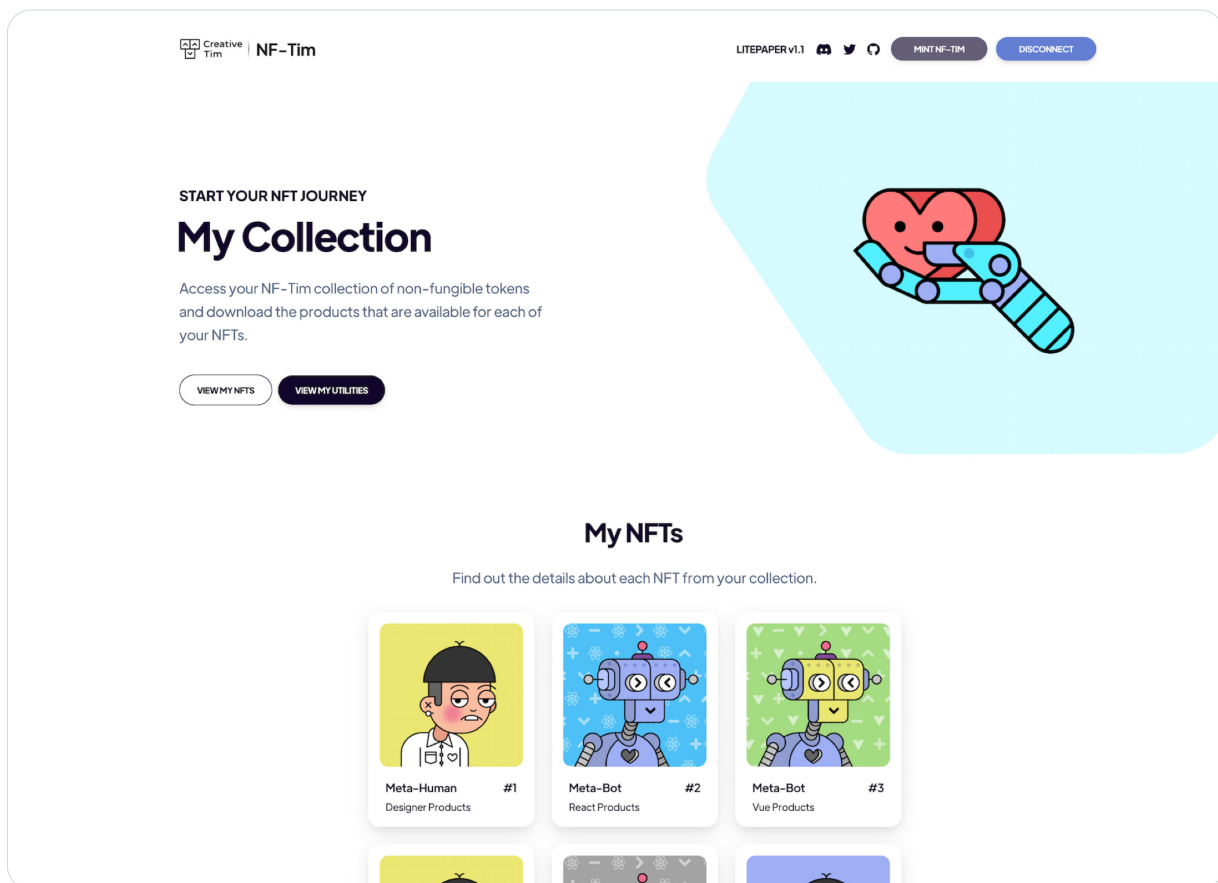

### **Notes:**

- Your Wallet should include the eGLD amount that is needed for buying the NFTs + the Transaction Fee (less than 1 cent).
- **The price of 1 NF-Tim will be 1 eGLD.**

## **STEP 8: Access your NF-Tim NFTs and Products.**

To access your NFTs and utilities after minting, you will have to access our dApp:

1. Enter [nf-tim.creative-tim.com](https://nf-tim.creative-tim.com)
2. Connect using your wallet.
3. Access your NFTs & Download your products.
